

NAME: _____

1. Refer to the figure below. Give a congruence statement for two triangles in the figure and name the theorem or postulate that proves the congruence.

$\triangle DEF$ is equilateral. $DG \cong GF$

2. Refer to the figure below. Give a congruence statement for two triangles in the figure and name the theorem or postulate that proves the congruence.

3. Refer to the figure below. Give a congruence statement for two triangles in the figure and name the theorem or postulate that proves the congruence.

NAME: _____

4. Refer to the figure below. Give a congruence statement for two triangles in the figure and name the theorem or postulate that proves the congruence.

5. Refer to the figure shown. Give a congruence statement for two triangles in the picture and name the theorem or postulate that proves the congruence.

6. Refer to the figure shown. Give a congruence statement for two triangles in the picture and name the theorem or postulate that proves the congruence.

[1] $\triangle DGE \cong \triangle FGE$ by SSS

[2] $\triangle GHJ \cong \triangle IHJ$ by SAS

[3] $\triangle ILJ \cong \triangle KLJ$ by ASA

[4] $\triangle HJK \cong \triangle KIH$ by SSS

[5] $\triangle HIJ \cong \triangle JKL$ by SAS

[6] $\triangle TUV \cong \triangle WXV$ by SAS
